Tree Information

2-2 or 3 refers to the age of the tree. Each tree spends 2 years in a seedling bed and 2 or 3 years in a transplant bed. This pertains to all of the evergreens. The deciduous trees are seedlings and their ages are indicated.

The measurements are approximate. The size of the trees will vary depending on the weather conditions during the growing season.

Please be sure to plant your trees as soon as possible to help viability. If unable to plant right away, keep trees in a cool, dark place such as a garage floor. Keep roots moist but do not submerge.

Tree spades are available for a small refundable deposit fee.
